Profile

Software Engineer with hands-on experience in building full-stack web applications using the MERN stack. Skilled in developing RESTful APIs, secure authentication, and responsive user interfaces, with experience delivering real-world projects including E-Commerce, Project Management, Car Rental, and AI-based Resume Builder applications.

Education

Bachelor of Software Engineering

Islamia College University Peshawar, Peshawar, Pakistan

2022 - 2026

Projects

Ai Resume Generator

An AI-powered Resume Builder web application developed using the MERN stack.

- The platform provides a clean and responsive UI, dynamic resume templates, and AI-assisted content suggestions to improve resume quality.
- Users can enter personal details, skills, experience, and education, and instantly see changes reflected in the resume preview.
- The application supports PDF download and secure data handling.

Car Rental

A full-stack Car Rental web application built using the MERN stack.

- Allows users to browse available cars, book rentals, and manage reservations.
- Includes role-based access for users and admins, ensuring secure and scalable operations.
- Designed to handle real-world rental workflows, including car availability, pricing, booking dates, and admin controls.
- Focuses on clean architecture, REST APIs, and scalable backend design.

Project Management

A full-stack Project Management System built using the PERN stack.

- Enables teams to efficiently plan, manage, and track projects from start to completion.
- Supports task assignment, progress monitoring, and role-based collaboration through a centralized dashboard.
- Designed to reflect real-world project workflows with a scalable backend and clean, responsive frontend.

E-commerce Website

A complete E-Commerce web application developed using the MERN stack.

- Provides a seamless online shopping experience.
- Users can browse products, manage carts, place orders, and track purchases.
- Admins can manage products, orders, and users through a dedicated dashboard.
